

Here at Gold Coast Center for Veterinary Care we consider our clients and patients an extension of our family. We want to assure all of you we will be remaining open during our normal business hours to continue to provide you with all of the specialty services provided here at Gold Coast. Given the current pandemic of Covid-19 and in an effort to continue to provide our best care for our patients while maintaining a safe environment for our clients and staff, we are asking that all of our clients wait in the car and call the hospital when you arrive for your appointment in efforts to limit the potential exposure in the lobby. Thank you for your cooperation and understanding during this challenging time.
